AN UNREASONABLE MAN.

Dear Miss Fairfax:

I am engaged to a young man, whom I see very often. For the last two months I have had to do night work, because my employer has found business dull and had to do away with some of his help. A week ago he told me that I would have to continue working nights for about four weeks, making it impossible for me to see my young man so often as before. Now he is continually quarreling with me and wants me to look for another position.

Do you think it is right of him to interfere in such a case when even by working overtime I see him a good deal?

He is very unreasonable and selfish.

BREAK THE ENGAGEMENT.

Dear Miss Fairfax:

I am secretly engaged to a young man two years my senior, but since we became engaged be goes to places of amusement without me. In the same building I work is a young man who wishes my attention whom I do not love, but like very much. He asks me to go to places of amusement, which I refuse on account of my engagement. He has asked me for a kiss, which I refused. Once, upon refusing, he kissed me and said he had more right than any one else to kiss me. I like him. He acts as if he loves me. Tell me how I can find out if he does, as he does not know I am engaged.

Secret engagements are always unfair to the girl, and you must either announce yours or break it. Your fiance is unjust; he refuses you rights which he reserves for himself. I think the second man shows a more lovable disposition.

GET A RIGHT TO THE HABIT.

Dear Miss Fairfax:
I am a young man 20 years old and have been keeping company with a girl one month my junior for the past three years. During this time we have never years. During this time we have never thought of our company but as friendship. One day I met the girl deeply distressed and, after helping her out of her difficulty, she kissed me.

It seems now that our friendship has changed to a stronger feeling, called love. Do you think it would be too much to ask her to kiss me goodnight upon departing to my home?

Anxious.

If you are sure it is each other you love, and not the kisses, ask her to be your wife. With an engagement ring on her finger, you will have the right to get a goodnight kiss.

Dear Miss Fairfax: Dear Miss Fairfax:

I have been engaged to be married to a young man for six weeks. I did not like him before I accepted his ring, but I thought I could learn to like him, as he was very kind to me, but I find out now I dislike him more than ever. I have offered his ring back to him and the refuse to accept I have he refuses to accept it, but threatens his life and my own. F. S. S. Don't wear it. Dear Miss Fairfax:

I have been keeping company with a girl about eight months, and every time I ask her to go some place she refuses, saying she will go alone, but not with me. What would you advise me to do. I love his girl dearly, and in the future would like to make her my wife.
